Board of Trade Notes

Have you become a member of the Board of Trade yet? If not, a membership ticket can be obtained from either of the following gentlemen, Messrs. H. R. Fitzpatrick, Fred Stevens, C. H. McMillan, Wm. Murdoch, or the secretary T. Tredaway.

The Board of Trade is out for a membership drive of 200 this year. To date there are 100 paid up members for 1932.

There are three committees on the Board—one of them working for the interests of the community.

Although we are in the midst of a depression, the Board of Trade is working for the future welfare and development of Crossfield and district.

The Board is in its third year and has accomplished much since it was inaugurated, but, it can also see much more ahead which needs to be done.

If you are not a member, the Board needs your support. The membership fee is \$1.00 and if you are a property owner, this is a real investment.

With The Curlers

Two rinks of local curlers went on Carstairs on Saturday evening, and split even, winning two games and losing two.

The Purvis-Smart combination won both their games, whilst the McCaskill-Gilchrist quartet dropped both games.

Personnel of the rinks: R. Smart, G. Purvis, Dr. McClelland and A. H. Hunter; H. McCaskill, J. Gilchrist, F. Baker, E. C. Collier and R. L. Thomas.

It will be noticed that Hall had an extra man on his rink, probably to substitute in case of mishap.

NOTICE

The nuisance grounds will be closed to the public except on Wednesday and Saturday afternoon until further notice.

All deposits must be placed as instructed by the Constable or Health Inspector.

Keys will be held by Constable Bolshaw, and the Village Scavenger.

Disposal of anything by anyone contrary to the Provincial Health Act, or Village By-Laws will be prosecuted.

By Order
Crossfield Village Council
per W. McRory.
Sec.-Treas

Mr. and Mrs. E. S. McRory were pleasantly surprised on Monday evening, when a number of their friends called on the occasion of their twenty-sixth wedding anniversary. During the evening they were presented with a silver flower basket—Calgary Herald.

Why The Difference?

A Chinese quack doctor in Calgary, was prosecuted and fined \$500.00 for making false Income Tax Returns. At Edmonton recently a Canadian was prosecuted under the same charge, and fined \$1,000. Why the difference?

The only difference that I see is that the so called Chinese doctor made \$62,000.00 last year, by feeling your pulse, and telling you that you had falling arches or some other affliction, and soaked you from \$5.00 to \$10.00 for a bottle or two of cure all.

The Edmonton man was a coal mine operator and I suppose was gouged on general principles.

We also notice the difference in the amount of fines imposed on those manufacturing home-made liquor, commonly called "moonshine." In some parts of the province the difference in fines—for the same offence—will vary from \$200 to \$300. Why the difference in justice?

Fellowship Club Notes

The regular meeting of the Crossfield Fellowship Club was held in the Masonic basement hall on Thursday, March 3.

After a short business meeting a geography match was held. Mr. Collier won and Mrs. R. Amery came second.

The usual jolly spirit of the gang was somewhat clouded, however, on Thursday night owing to the fact that Ernie and Bea Amery were spending their last evening at the Club before leaving for their new home. As a small token of the esteem in which they are held, the Club presented Mr. and Mrs. Amery with a carving set.

The Club is securing Mr. McDonald on March 17, to speak on the life of Sir John A. McDonald. This will be an open night and everybody is welcome.

Village Council Meeting

The first meeting of the year of the Village Council was held on Monday evening. All members present.

J. M. William was re-elected Mayor.

In order to abate the abuse of the nuisance grounds, notice was ordered inserted in the Chronicle setting out the regulations that must be carried out.

The wiring of the Fire Hall was authorized.

The Secretary was authorized by resolution, to use all authority given by the Tax Recovery Act to collect all arrears of taxes.

The constable was also instructed to assist the sec.-treas. with the collecting of taxes.

The council is in communication with Mr. May, a professional assessor re the new assessment. Mr. May is expected in town this week-end to meet the Council and the School Board.

Several accounts were passed and ordered paid.

Action Needed

When a Grain Company or other Corporation, hires a man to manage their business at any point where they are operating, they require the employee to put up a bond for a certain sum of money, that in case he goes wrong the company will get some compensation. We believe this is the correct procedure.

Lawyers in Alberta have the handling of considerable sums of money in trust for their clients. Several of these gentlemen have in the past, committed a breach of this trust, and were prosecuted, with the result that they lost their gowns, and in some cases, later on were re-instated.

But this does not give the client back his money.

Is this a privileged class?

It is up to the U. F. A. Government to enact legislation that will compel all individuals of this kind to be properly bonded for the protection of the public.

We also have a type of shyster lawyer, that is out to get the money, and will go any route to get it. Let's have some action on this form of abuse.

The adjourned inquest held at Carstairs on March 9, before Dr. Whillans, coroner, investigated the death of Leo Ewing Fisher, who was killed in a car accident Feb. 17th, south-west of Carstairs.

The jury brought in the following verdict:

"That Leo E. Fisher came to his death on Wed., February 17, 1932, at about 7 1/2 miles south-west of Carstairs at about 4 o'clock p. m. by being pinned under a Chevrolet truck, owned and driven by himself. The immediate cause of death was by suffocation."

"We find the accident was caused by too fast driving for the condition of the road at this point and the truck becoming out of control."

Make a New Start

The winter of 1931-32 is passing—it is almost gone. Admittedly, it has been a winter of trial, of hardship, of great difficulty, even of actual suffering for many. It has been a period to try men's souls, to test their faith and their courage. And tens of thousands have stood the test. The experience may have left some marks and scars, it has undoubtedly taught some bitter lessons, and these, in the long run, may not be without their value. At all events, it is to be hoped so. But the present, and pleasant, fact is that this winter of our discontent, disappointment and trial is almost over. For so much we can offer thanks.

With the ending of this winter, there is also a growing belief, becoming more and more general, that the worst of the so-called business depression likewise comes to an end; that from this time onward there will be a steady improvement, albeit slow and gradual. It is not to be expected, nor indeed would it be desirable, that there will be anything spectacular in this betterment, as there was at the beginning of the depression in the great stock market crash. The upward movement should be of a permanent character, and to be permanent it must be slow and gradual, with nothing of the mushroom variety about it.

However, during this winter people have been thinking as they perhaps never thought before, thinking seriously, thinking constructively. So many of the false hopes erected in the days when everything was booming collapsed, so many false gods were overthrown, so many ungodly theories were exploded, so many bubbles burst, that people generally, including statesmen and politicians, great financiers and business executives, as well as the humble laborer and wage earner, have been forced back to acceptance of and reliance upon the tried and true in economics and the basic foundations of life. This, in itself, is a great gain and full of promise for the years that lie ahead.

One writer in a magazine devoted to business raises the interesting question as to the extent to which the ill-considered choice of a word has played a major part in producing the psychological atmosphere of our far from satisfactory business conditions. He says that if the person or persons who first gave currency to the phrase "business depression" had made the happier and more accurate choice of "business recession," it is conceivable that the general attitude toward our recent past, our still troubling present, and our probable future for some time, might have been distinctly different. While the two phrases might have the same literal meaning, each indicating that business had gone more or less away from a previous point of comfort and satisfaction, might we not have viewed the movement somewhat more cheerfully, more hopefully, had we thought of it as having merely "moved" than as having actually "dropped"? It is clear that "recession" is a much less fearsome word than "depression." As usually we picture things as coming back much more easily than as coming up, although the same forces may affect and govern either movement. From now on it would do no harm, and might do some good, in the effect upon ourselves, to think and measure business as having merely receded for the time being rather than as being in a hopelessly depressed state.

Apart from this, however, with the coming of Spring in each and every year, all nature rejoices and takes on new life. The grass, the trees respond; all animal life feels invigorated; human beings are inspired with new hopes and animated with renewed energy. The dark days and long nights of winter give place to the longer days of bright sunshine and shorter hours of night. Everybody feels a desire to busy themselves about something useful and productive. Nature itself on every hand is aroused from its long sleep, anxious once again to produce and be fruitful.

We are now entering upon that time of activity and productivity. It is ours to make the most of it, not in any foolish spirit of undue optimism, not expecting to work wonders, but with a cheerful hope and expectation that, with the winter of our previous discontent and hardship past, we are again placing our feet on the high road to better times and in the direction of finer and more permanent and beneficial accomplishment.

It is now up to us as individuals to throw off the depression which has upset and unnerved us, which actually made cowards of some of us, and, realizing that it was rather a recession of former good times which took place, set ourselves energetically and hopefully to the task, not only of checking that recession, but of bringing ourselves, our businesses, our country back to a more satisfactory plane upon which it has been our happy lot in former years to move and live.

Placing Settlers On Land

Figures Given By Government Show Number In Each Province

Of the 44,059 persons placed on the land by the co-ordinated efforts of the immigration department and the transportation companies, 13,199 were unmarried men, while 6,352 families (averaging five members to a family) comprise the remainder. This was the answer of Hon. W. A. Gordon, Minister of Immigration, to a question in the House of Commons.

Alberta, with 2,193 families and 3,520 single men, received the largest number of placements.

The total of other western provinces follows:

Province Fam. Single

British Columbia 534 156

Saskatchewan 1,455 1,920

Manitoba 691 2,002

Law Works Both Ways

Prejudging Involves Responsibility For Girls As Well As Men

Ladies with Leap Year intentions had better think thrice before they leap in 1932!

It is all very well to be a modern and propose to the man you want to marry. But suppose one proposes, hears boy friend slip a shy "yes" and then changes her mind. Is this still a woman's privilege?

The law says it is not. The fiance may turn modern, too, and go to court, and it is possible that in another four or eight years the docket will bristle with breach of promise suits, with men in plaintiff roles.

"The law works both ways, and there are already a few such suits on record," said Miss Ellanoray Fallo, a New York lawyer.

Even if jurors mischievous a man can stand his ground and sue the girl who throws him down. For a marriage promise is a bilateral contract and a very special one, legally speaking. It implies that something is to be given on both sides.

Even if a woman could not break her promise legally," explained Miss Fallo. The question came up because a woman's promise was not held in very high regard, popularly, and it was doubtful whether she could be held to it. But the ruling was that the marriage promise is a mutual one, and if it is not to be binding on one side then it must not be on the other.

It was generally agreed a man should not be allowed to throw a woman over, either, without a penalty.

Skin Loveliness

Easy to Have. Famous Vegetable Pills Better than Creams

Miss E. T. has proved it. She says: "Carter's Little Liver Pills will do more to keep the complexion clear than all the face cream I have used." She is PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels. Dr. Carter's Little Liver Pills will help equal for correcting Constipation, Acidity, Bilelessness, Headaches and Indigestion. 25c. & 75c. per bottle. Everywhere. Ask for Carter's by NAME.

A Woman Geologist

Talented Scotswoman Awarded Medal in Recognition of Research Work

One of the four medals awarded for the current year to geologists of distinction by the Council of the Geological Society of London goes to a Scotsman—Dr. Maria M. Ogilvie Gordon. This talented lady, who is a daughter of the late Rev. Dr. Alexander Ogilvie, Aberdeen, receives the high honor of a Lyell Gold Medal, together with £50 from the Lyell Geological Fund, in recognition of her researches on the structure of the Western Dolomites (Tyrol). Dr. Ogilvie Gordon studied at Munich University, and was awarded the Ph.D. degree with highest honors in 1900, when the degree was the first conferred by that University on women, says the Glasgow Herald.

Acids In Stomach Cause Indigestion

Create Sourness, Gas and Pain. How To Treat

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning gas, bloating, nausea, etc. are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining irritated, digestion is delayed and food sits in the stomach, causing flatulence and other ailments which every stomach sufferer knows well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any drugstore some Bismuth Magnesia and take a teaspoonful of powder or four tablets in water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismuth Magnesia in powder or tablet form—never liquid or milk—is harmless to the stomach, inexpensive to take and is the most effective remedy for stomach troubles. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Argentine May Exhibit

Plans To Send Wheat To World's Grain Exhibition

The ministry of agriculture has recommended that Argentine farmers send exhibits of wheat and other products to the World's Grain Exhibition to be held in Regina, Saskatchewan, in 1935.

This decision was made at a conference of government agricultural officials seeking to increase the efficiency of Argentine farming methods and to open new export markets for the Argentine farmer.

In 1930 the United States' 22,600 movie houses sold \$1,500,000,000 worth of admission tickets.

CHILD need REGULATING?

CASTORIA WILL

DO IT!

When your child needs regulating, remember this: The organs of babies and children are delicate. Little jewels must be gently urged—never forced. That's why Castoria is used by so many doctors and mothers. It gives your child but a little cold or fever, or a digestive upset, give him the help of Castoria, the children's own remedy. Genuine Castoria always has the name:

Wm. L. Fletcher
CASTORIA
CHILDREN'S CATHARTIC

Feeding the Hungry

Wheat From Board's Bulging Bins To Be Distributed In U.S.

The principle of feeding the hungry in the United States wheat from the farm board's bulging bins was embraced by House of Representatives Democratic leaders and they made preparations to pass a senate bill doing 40,000,000 bushels to this purpose.

Under pressure from majority leaders, the agriculture committee reversed its previous stand and approved the measure by a vote of 15 to 6.

In addition to providing food for needy people, provision also is made for feeding livestock on the crop failure areas of the northwest.

NEIGHBORS TALK

"I am employed in a theatre and it is a problem to make ends meet. I help support my mother and sisters. I like to dress well but haven't much money to spend on clothes. To give the appearance of variety to my slender wardrobe I change the colour of my dressings as soon as the things become faded. I always use Diamond Dyes for the work—using them as dyes for dresses and as tints for stockings. I have always gotten such perfect results that our neighbors talk about the great number of new things I have."

"I learned about Diamond Dyes from our wardrobe mistress. She says she has tried all the dyes on the market but none so such splendid work and are so easy to use as Diamond Dyes. I understand they are the world's most popular dyes and they deserve to be."

L.P., Montreal.

Knew the Answer

"I suppose, Maggie, ye widna want tae go tae the concert on Wednesday in yer auld hat!"

"No, John, I couldn't think o' showin' mae' in it!"

"That's jist what I thocht, so I bocht only wan ticket for the concert!"

The Lucky Seven

The ancients regarded the number seven as lucky because they counted seven sacred planets, seven days in the week, seven divisions in the Lord's Prayer, and seven ages of man.

The Norwegian whaling companies have not gone out on whaling expeditions this year, and as a result large numbers of people have been left unemployed.

A sunflower with a combined leaf area of 11 square yards will evaporate some 75 quarts of water from its leaves during growth.

Persian Balm the creator and preserver of beautiful complexions. It is in effect and wonderfully stimulating. Safeguards and beautifies the most delicately-textured skins. Cools and soothes all skins burned or irritated by weather conditions. Magical in results. A little gentle rubbing and a youthful freshness and radiance is instantly created. Invaluable for softening the hands and making them flawlessly white. Truly the perfect toilet requisite for the woman who cares.

Explosion of a blank cartridge is used to force together dies that splice the ends of copper wires and cables in a new device for linemen.

Citizens of other countries can enter the U.S. military and naval academies by a special act of Congress.

A new first aid device is liquid adhesive for fastening bandages.

Investments In Canada

British and Foreign Investments Amount To Over Six Billion Dollars

British and foreign investments in Canada amount to about \$6,125,950,000, according to revised figures by the Dominion Bureau of Statistics. Total business capital employed in Canada is \$17,500,000,000, exclusive of private capital in domestic enterprises such as farms, homes, etc. About 65 per cent. is owned in Canada.

This estimate is based upon more complete information as to the distribution of ownership of the securities of firms located in Canada in 1930, obtained through the census of industry and other investigations. The national wealth is rated at about \$30,840,000,000.

Of the British and foreign investments in Canada \$1,184,670,000 was in Dominion, provincial, and municipal securities; \$1,674,865,000 in railways; \$228,230,000 in other public utilities; \$520,248,000 in the pulp, paper and lumber industry; \$281,000,000 in mining; \$548,915,000 in metal industries; \$492,376,000 in all other industries; \$250,000,000 in merchandising establishments; \$209,022,000 in finance and insurance; and \$388,023,000 in land and mortgages.

Of the total investment in Canada by British and foreign countries amounting to \$6,125,950,000, the largest share \$3,726,745,000 was held by people of the United States. British held \$2,228,024,000 and other countries, \$171,185,000.

Sixty-seven per cent. of British investments are in government securities and public utilities, chiefly railways. United States investments are 50 per cent. in government securities and public utilities and 50 per cent. in other securities, chiefly industrial and mining.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest, and if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

Chemical research hopes to cut brick laying costs by perfecting a brick which will enable a workman to lay two bricks with the effort now required to lay one.

Little Ethel—Mother, are you the nearest relief, I've got?

Her mother—Yes, dear, and your father is the closest.

It takes nearly 1,700 quarts of water to produce one pound of wheat, 1,425 quarts of water to produce one pound of oats.

Mahatma Gandhi, says an old timer, used to be a lawyer. Well, the way he dresses now, he looks like a client who has just paid a lawyer.

A hot knife will cut fresh bread smoothly.

Lexington, Ky., has a cemetery for great racing horses.

SHE LOST 18 lbs.

Here is a lady who writes—"I am most thankful I saw your announcement 'Lose Ugly Fat.' The recipe she read about was such a simple one—just that almost magical morning dose of Kruschen Salts.

"I started taking Kruschen Salts 16 weeks ago to reduce weight. I then weighed 140 lbs. and now 122 lbs. I am anxious to get down to 115 lbs., and suppose I will in time. Kruschen Salts have done me good all round. Am most thankful I saw your announcement 'Lose Ugly Fat.'—Mrs. V. W. C.

Unlike most laxatives, Kruschen isn't simply a laxative. When you take Kruschen Salts you not only stimulate your liver and kidneys to function naturally and perfectly, but you supply every internal organ, gland, nerve and fibre in the body with Nature's own revitalizing and rejuvenating minerals. Get a bottle of Kruschen Salts today, and take one-half a teaspoon in a glass of hot water every morning before breakfast.

Before the bottle is empty you'll feel years younger—eyes will lighten—step grow sprightlier—nerves steadier—you'll sleep sound, enjoy your meals, and after a hard day's work you'll be ready for wholesome recreation. Infants and women already know all this.

FREE TRIAL OFFER

If you have never tried Kruschen—try it now! You'll sleep sound, enjoy your meals, and after a hard day's work you'll be ready for wholesome recreation. Infants and women already know all this. FREE TRIAL OFFER. This consists of one regular 75c. bottle together with a separate trial bottle—sufficient for about one week. Open the trial bottle first, put it to the test, and if you are not entirely convinced, Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it back. Your drugstore is authorized to return the bottle for a full refund of your money. You have tried Kruschen free at our expense. What could be fairer? Manufactured by Dr. Griffiths Hughes, Ltd., Manchester, Eng. Sole Importers, McCullough Bros., Ltd., Toronto.

Willing To Help

Paper Publishers Does Not Bother Prince Of Wales

The Prince of Wales paid warm tribute to the British press in a recent speech and revealed that he does not mind in the least being made the subject of newspaper publicity. Speaking at the inaugural banquet of the company of newspaper makers, which was attended by more than 300 editors and others prominent in the newspaper world, the Prince said: "Fleet Street and Shoe Lane (London's journalism centres) have always been very good friends indeed to me, and if I can repay part of my debt by affording the newspaper making craft with a bit of additional copy I am only too glad to do so."

'Always keep Douglas' Egyptian Liniment at hand, ready to bring immediate relief to burns, sores and felons. Stops bleeding at once. Prevents blood poisoning. Splendid for sore throat and ulcers.

Work on the system of highways from Cape Town to Cairo is progressing so rapidly that in the near future motor travel the length of Africa will be possible at all seasons.

Daddy—"Only fools are certain, Bobby; my men hesitate."

Bobby—"Are you sure of that, Daddy?"

Daddy—"Yes, certain of it."

International conscience is the still small voice that tells a country when another country is the stronger.

RHEUMATISM

DON'T suffer with rheumatism.

You get amazing relief from Aspirin. Simple, but how effective! Those worst days, when suffering is acute. If you take Aspirin, the pain subsides. Take it right away. Take enough to drive away every twinge. Aspirin can't hurt you. It does not depress the heart, or upset the stomach.

If you ever have those painful attacks of neuralgia, neuritis, sciatica, lumbago—get some Aspirin and just follow the proper directions. These tablets are just as effective in such suffering as in the case of simple headaches, colds, etc. The relief is felt immediately.

Carry the pocket tin. Aspirin will insure your comfort through the cold season. Get the genuine tablets of Aspirin, uniform, each bearing the Bayer cross. Buy them in bottles of 100 tablets, or this familiar little box:

(Made in Canada)

Indications Point To End Of Drought Conditions And Prospects Are Brighter

More hopeful than he had dared to be in three years, the wheat farmer of Western Canada today looks forward to another encounter with his greatest enemy—drought—and ponders over the signs, still indistinct, that seem to point to the downfall of his enemies.

His chances of harvesting a normal crop this fall are good, in the opinion of many agriculturists. They are not as bright as in several years previous to the three-year dry period that started in 1929 and ruined or partially ruined consecutive crops, but they are better than in 1930 and 1931 for a variety of reasons.

Drained of its moisture reserve by three summers of scorching sun, the great wheat country of Alberta, Saskatchewan and Manitoba will be put to seed this spring by thousands of grain wheatmen who know the land must produce this year if they are to keep from sinking further into the slough of debt into which they have been dragged by low prices and crop failures.

Here are some of the reasons they prepare for seeding with hope:

(1) More work than usual was done on the land last fall. The late season allowed farmers, particularly in Manitoba, southern and central Saskatchewan and southern Alberta, to prepare far more acreage for seeding and summerfallow than in the last several years.

(2) Sufficient seed will be available to plant as much, if not more, land than last year when 25,357,722 acres were needed to seed the crop.

(3) Fall rains and exceptionally heavy snowfall this winter are likely to leave the top-soil in a fairly moist condition. The lack of reserve moisture, however, makes early spring rains imperative if the crop is to develop properly.

(4) The damp autumn caused growth of weeds, permitting farmers to do considerable cutting and cultivating. In some districts weeds came to seed before cold weather set in. The weed situation generally is expected to be improved in the spring.

(5) Consistent leniency of farmers' creditors in not pressing collections on debt interest and principal. Despite the promising signs, that point to a change in the times, agriculturists know that only one thing will bring production back to normal. There must be early spring rains, rains that will provide moisture for seed germination and lessen possibility of soil-dripping.

The comparatively small amount of moisture that will be absorbed by the land when snow starts to melt is far from sufficient to get the wheat 1932 crop away to a good start. This is especially the case in areas dried out by three seasons of sub-normal rainfall, including southern Saskatchewan, Manitoba, parts of south Alberta and sections of central Saskatchewan.

An outstanding exception is the Peace River country of Alberta, virtually untouched by the drought menace last summer. Prospects there are for another bumper crop. The soil holds almost a normal moisture supply.

It may be that the farmer is a good gambler, or just a plain optimist, but he feels confident this season will provide his crops with a good moisture supply. "The law of averages, if nothing else," said one expert grower, "should give us rain this spring and summer. In other words it's been fairly so often these last few slips that heads is due."

In the wheat belt where a scorching sun burned out thousands of acres of crops last summer, smashing the hopes of farmers early in August, more land than usual is prepared for seeding. Late summer and early autumn could not be wasted and hundreds of far-seeing farmers started cultivating the dry, hard land at a time when normally they

would be reaping from it a rich harvest of grain.

Though seed will not be scarce, a good percentage of growers plan to summerfallow from one-quarter to one-third of their land, perhaps plowing on the balance more oats than usual to build up depleted feed supplies.

It promises to be a season of hard work for the prairie farmer. He will do a great deal more labor himself than in the days when "two dollar wheat" was his objective, depend on fewer helpers and produce wheat—if at the same time he beats the drought—more economically than at any time since machines revolutionized farming a few years back.

New Tire Air-Cooled

Hundreds Of Holes In Tread Let Heat Escape

It is an established fact that heat is a great enemy of rubber. Tests show that tires sometimes get as hot as 200 degrees, and that this temperature shortens their life.

A manufacturer now announces, states World's Work, that a successful air-cooled tire has been devised. Hundreds of transverse holes are made in the tire tread; the hot air is constantly being squeezed out by contact with the road and replaced by cooler air. The result, it is claimed, is a reduction of as much as 36 degrees in heat.

This inventor believes that it will be possible to make such a tire containing much more rubber than the current types, and that eventually tires will be built which will last as long as the car.

SCHOOL WEAR THAT IS CHIC AND SO LOVELY FOR SPRING WITHOUT A COAT

A lovely sheer woolen in rose-red, because Paris has made it so popular, is chosen by the smart junior for her coat-like dress. The trim is plain brown as are the buttons and belt buckle.

Besides woolen, firmly woven cottons, rayon novelties and linen can be used for this darling school dress. It can also be made with short sleeves.

And it needs no telling how simple it is to fashion it. The small coat is really amazing. Style No. 939 is designed for sizes 8, 10, 12 and 14 years. Size 8 requires 2 1/2 yards 35-inch with 1/2 yard 39-inch contrasting. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Latest Scenes From Shanghai

Here are two of the latest pictures showing conditions in China. The top picture shows steel helmeted Japanese sailors, leaving their barricades for an assault. The lower picture shows a suspected sniper being hustled off to military court.

Evolution Of English

Many Names Have Undergone Changes During The Years

Fenchurch Street, in the City of London, was not fenny or swampy. In Norman times it was the scene of a "foin" (hay) market. May Duke cherries were once Medoc cherries. The dormouse never had anything to do with doors. It got its name in Norman times, when it was very properly called the "dormouse," or sleeper, on account of its winter hibernation. Heesters of the Tower of London never won notoriety by gorging themselves on the flesh of the ox—they were "buffeters." Jerusalem artichokes never saw the Holy City; they were the Norman French "girasoles." The first gloves were made at Ghent; the French accordingly called them "gants," which became in English gauntlets, then gloves. Again, those poppyheads carved on church benches are not named after the poppy; they were "poupee," or puppet, heads.

Cheesemakers Protected

Only One Firm Allowed To Use Name Of Famous Roquefort

The cheese makers of Roquefort (France) are proud of their cheese, and both the Ministry of Agriculture and the law courts have helped to protect them against rivals. There are ten Roqueforts in France, but the Roquefort where the cheeses are made is in south-central France in the Department of Aveyron. Cheese has been manufactured there from time immemorial. It is stored in the town's cellars in order that it may become "good and savoury," to use the expression employed by King Charles VII in a charter granted in 1467. There are other towns near Roquefort which make cheese of curdled ewe's milk in the same way, and put in the same kind of cellars, but a Court ruled in 1922 that their cheese could not be called Roquefort cheese.

Omaha, Neb., is located on 16 national and interstate highways and is the junction of three national highways.

John D. Hands Out Advice

"Don't drive so fast, young man," is what John D. Rockefeller advised Sir Malcolm Campbell, British auto speed king, at their recent meeting at Ormond Beach, Florida. Campbell apparently took John D.'s advice, because he only travelled 553 miles an hour, to establish the new land record. This was 8.2 miles an hour faster than his previous record of 245 miles an hour.

Canada Fails To Keep Pace With Other Countries In The Improvement Of Dairy Herds

Protect Fruit Growers

Hon. Robt. Weir Addresses Meeting Of Canadian Horticultural Council

Reference to the forthcoming Imperial Conference, which will have a bearing on the trade of commercial horticulturists, was made by Hon. Robert Weir, Minister of Agriculture, in a welcome address at the 10th annual meeting of the Canadian Horticultural Council at Ottawa.

The government calls for and relies upon the advice of the horticultural council, knowing that it represents all branches of the industry," said Mr. Weir. "During the past the government had been trying to get the growers something in the way of a much needed protection in the form of a reasonable tariff. In view of the coming Imperial Conference the government is particularly anxious to get the figures on the cost of production of various fruit crops, and the prospects of supplies in one, five and ten years, with the estimated cost. The care with which this information is prepared will determine the value the commercial horticulturist may expect from the conference."

Has Faith In Canada

Governor-General Has Conviction That Dominion Rests On Sound Foundation

Profound conviction that Canada rests on the soundest foundation any country can have, "a people whose character, whose heart, and whose outlook are fundamentally sound," was expressed by the Earl of Bessborough, Governor-General, at a luncheon given in his honor by the Canadian Club at Halifax.

"With the first anniversary of my arrival only a few weeks distant, I am naturally tempted to look back on the events of the past 12 months," said his excellency in his address.

"I have met a good many thousand people, and they besides impressing on me individually that their own city is really the centre of gravity of the whole Dominion, have collectively impressed on me a profound conviction that the Dominion rests on the soundest foundation any country can have, namely, a people whose character, whose heart, and whose outlook are fundamentally sound."

Value Of Cow Testing

Testing Milk Cows For Production Necessary To Succeed

The value of testing milk cows for production was emphasized at Saskatoon by C. Ismor, dairymaster of this district, on the occasion of a banquet tendered him by the Saskatchewan Herd Improvement Association, upon his winning the association cup for highest average production, and the Star-Phoenix trophy for the greatest increase in production per cow.

Mr. Ismor said he tested every cow and unless they measured up to expectations he got rid of them. He said he bought all his feed and yet made a profit from his operations.

It was reported that the average cow owned by members produced 29 pounds more butterfat in 1931 than in the previous year despite unfavorable weather conditions.

Damage From Insects

Field Pests Do Damage In Canada Totalling An Enormous Amount Annually

The annual damage wrought in Canada by insects amounts to over \$100,000,000, Prof. A. V. Mitchener, of the Manitoba Agricultural College, told members of the Canadian Society of Technical Agriculturists at Winnipeg.

Professor Mitchener added that in 1932 a more extended area of Manitoba will be infested with the grasshopper plague than was the case in 1931.

Keeping Up-To-Date

Monks expelled from France thirty years ago are keeping their monastery in Luxembourg up to date in every respect. Every new modern device that can serve their purpose is installed. The monastery is connected with the railway station by a light railway, along which all supplies are brought. Other railways connect the various buildings. All the heavy work is done by electricity.

Settlement of the unemployed on agricultural land in Germany is proceeding slowly.

Living bacteria can be found in bituminous coal at a depth of more than 3,000 feet, scientists say.

Canada is not keeping pace with other dairy countries in improvement of dairy herds, in opinion of Dr. J. A. Riddick, dairy commissioner, who addressed the Dairyman's Association of Eastern Ontario at Kingston. He described the movement as "ignored" in this country, for though there has been a gradual growth in cow-testing, the proportion of animals involved is still insignificant in comparison with the total.

"It is somewhat significant," says Dr. Riddick, "that in New Zealand, Denmark and other countries where cow-testing has made most progress, the herd owners have taken the initiative and have borne most of the cost. In Canada, the movement is showing best results in Saskatchewan and British Columbia, where most of the cost is borne by the farmers themselves. This seems to suggest that when the people pay for a service they get more out of it. I sometimes think that governments do too many things for the people in this country."

It is interesting, therefore, to find in the report of the dairy commissioner for Alberta a statement that "organized cow-testing work has been carried on by the Dominion Department for a number of years, but until quite recently has not received the attention and support that it deserves at the hands of our dairymen. Our neighboring provinces of British Columbia and Saskatchewan are developing this sort of work along very substantial lines, and there is every reason to expect that the lower price level for dairy products will give a strong impetus to the extension of any line of work that will promote a lowering of the cost of milk production."

Lindbergh Does Not Change

Just As Quiet At Thirty, But Trifle More Mature

Charles A. Lindbergh was 30 years old the other day. The day found the prince of the sky-ways even more carried in the science he loves and just as averse to talking about himself. The aged phrase "Business as usual," still applies to him—so far as any one can discover. Charles Augustus Jr. is now a toddling youngster. A trifle more mature, the flying colonel is in most respects just the same tall, slim youngster who speeded the heart beats of a world with his Paris flight. His light hair is just as tousled and his voice as boyish. The last twelve months have been eventful in the Lindbergh career. Twenty thousand miles, more or less, would be a rough estimate of his year's air travels.

Large Order For Shingles

British Columbia Ships Seven Million To Western Ontario

A train load of 32 cars of British Columbia shingles, parts of an order for 34 cars, representing 7,000,000 shingles, or enough to roof over 400 average dwellings, has been shipped from Vancouver to eastern Ontario. Even in normal times such a shipment would be exceptional. In existing conditions it is hoped that it is a token of renewal of demand for shingles and lumber generally in eastern Canada.

The order is from Weston, Ont.

A Higher Rank

The second officer was upgrading a seaman for his blubious habits. "You think, Tapplin," he said, "it wasn't for your weakness for rum, you might have been a second officer like me, instead of just a sailor before the mast."

"Stow that stuff!" answered Tapplin, gruffly. "When I'm drunk I'm an admiral."

Larne, France, is to have its first swimming pool.

"Take more notice of actions than words." "You are evidently not used to sending telegrams."—Buen Humor, Madrid.

"Did you run against a car?" "No. Against my wife."—Felix Mole, Paris.

WORLD HAPPENINGS BRIEFLY TOLD

George C. Druce, 82, world famous botanist, died recently.

A high power radio station to be erected at Davenport, England, this year will broadcast programs to all parts of the Empire.

The Prince of Wales will unveil the memorial to the missing at Thiepval, on the Somme, on Whit-Sunday, May 18.

Canadian exports of live cattle to the United Kingdom reached 27,730 head in the year ended November, 1931.

Women have voted for the first time in the history of Greece. The occasion was the municipal elections of Piræus, near Athens.

At the beginning of 1931 Canada had a total of 5,872 grain elevators with a capacity of 414,060,260 bushels.

Although Great Britain built more ships last year than any other country, her output fell by 976,000 tons compared with 1930.

According to advice received from the Dominion Department of Trade and Commerce representative at Cairo, Canadian apples are scoring high on the Egyptian market.

Registered letters to foreign countries will not be allowed to leave Austria until they have been censored, as a means of stopping violation of foreign exchange regulations.

With only nine or ten miles yet to be cut, Hudson Bay Junction is now assured of road connection with the northern Manitoba metropolis of The Pas by spring.

Potatoes were grown at Dunvegan, in Peace River district, as early as 1810; in that year nine bushels planted on May 10, yielded 150 bushels on October 3.

A national advertising campaign, chiefly through newspapers, to acquaint the people of Canada with home-grown fruits and vegetables will be undertaken by the Canadian horticultural council.

Advance In Photography

New Synthetic Dye Records Hitherto Invisible Objects

A new synthetic dye which photographs hitherto invisible objects was reported to the Optical Society of America by Dr. C. E. K. Mees, director of research of the Eastman Kodak Company.

This dye, xenocyanine, when used in emulsion on a photographic plate, records very short waves of heat radiation as it were visible light. These newly photographed radiations are infrared waves much longer than anything hitherto rendered visible.

The new dye "sees" these waves out beyond 11,000 angstrom units. An angstrom unit is about one-two-hundred-fifty-millionth part of an inch. So this latest step into the invisible picks up waves a little less than a twenty-thousandth of an inch long.

Objects photographed with infrared have the same appearance as those seen with visible light.

Watches which hold a lipstick are a fashion fad in Paris; when the lipstick is turned up for use the moving mirror winds the watch.

Experiment In Education

Opportunity School In Denver Is Filling a Real Need

A unique experiment in education, carried on for the last sixteen years by the city of Denver, is described in a recent report prepared for the Association for Adult Education by Professor Fletcher H. Swift, formerly of the University of Minnesota, and an associate. It is known as the "Opportunity School," and owes its existence to the intelligence and initiative of Miss Emily Griffith, a grade teacher who saw a pressing need and devised plans for meeting it.

A street laborer, too old to work, was taught the rudiments of book-keeping and a position found for him. Another old man was taught cobbling, and has since earned his living in his own home. A young boy was given money for a bath, bed and breakfast, with instructions to return the next day. A job was found for him, and he has held it ever since. An overgrown lout, who stuttered badly, produced a card signed by a grade teacher, "This boy is a moron." When asked, "Can you read?" He replied, "No, I can't read, but I could draw what they are reading about." He showed a real gift with a pencil, and was put in a school where he made good. Dozens of similar stories are told to show the scope and variety of the work done by this school. Even training in etiquette and social usage has been included.—Minneapolis Journal.

INTERESTING CROSS-OVER ARRANGEMENT GIVES SMART LENGTHENING EFFECT

There are few amongst us who can't support a few slimmings lines.

And what a joy today's model is to the woman of heavier build.

It is cut along the jacket-like lines now so much favoured by Paris.

Carry it out as its inspirator in a checked waist in navy blue with rose-red and plain blue trim—and you'll love it.

You can wear it now and all through the spring.

Rough crepe silk in black with white trim would be charming too.

Style No. 978 is designed for sizes 36, 38, 40, 42, 44, 46 and 48 inches bust. Size 36 requires 3½ yards of 36-inch material with ½ yard of 36-inch dark and ½ yard of 36-inch light contrasting.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

When a train from the suburbs of Paris is late officials give out slips showing the exact time of arrival so commuters will have evidence to explain their tardiness to employers.

"There's nothing to worry about now, darling, because lightning never strikes more than once in the same place."—The Humorist, London, England.

Gardening Notes

A GOOD LAWN

The lawn is absolutely essential from the standpoint of beauty in connection with any garden, an even, velvety sward of rich, green grass setting off brilliant flowers and making an ideal spot for the children to play in. We can use grass for our paths between the beds, though if there is much traffic it may not stand up as well as more permanent material like brick, flagstones, gravel, concrete or cinders. Our lawn must be even, the grass should be a dark green, there must be no weeds and no bare spots. In planting a permanent affair of this kind most of the work must be done in the autumn. It is essential that the ground be thoroughly dug and levelled before the grass is sown. If at all possible, give any weed seeds a chance to sprout and then cultivate to kill them before we seed down. Late frosts and heavy spring rains will settle the soil after which we should rake level again. Grass like any other plant responds to fertilizer, and while well rotted manure is one of the best agencies in this connection, in the case of lawns it is not so advisable as commercial fertilizer on account of the danger of weed seeds. A good mixture high in Nitrogen, which also furnishes the green growth, is the best to use. A vital factor in this, as well as all other forms of gardening, is the seed. There are dozens of mixtures on the market and prices vary. But good grass costs money because seed giving a fine, velvety sward that will stand up year after year is expensive. Cheap mixtures will make a fine appearance the first year, but kill out badly with frost and are inclined to develop more and more into coarse, rank-growing grass as time goes on. Reputable seed houses who depend on trade year after year for their own protection only handle grass that will give the best results under Canadian conditions and their mixtures, tested and approved by Government officials, are safe. One pound of seed is required for every two hundred square feet, and where the ground is shaded special seed should be used. Roll or pound the seeded ground thoroughly. This same practice is recommended for treating bare spots upon which the seed should be rolled in thoroughly and some protection against birds, like wire or branches, should be placed over the newly seeded spot.

GOOD SEED IS FOUNDATION

Because seed is so cheap and one of the most important factors in the cost of gardening, we are too apt to overlook its importance. Good seed is essential and we should purchase that especially suited to Canadian conditions. Certain varieties which may give wonderful results in England or the southern States are not likely to do well in our country, and on this account gardeners are strongly advised to obtain their supply of both seeds and plants from Canadian sources.

The letter "P" is like a selfish friend—the first in pity, the last in help.

"Baby's Own Tablets" relieve baby's colds so easily, writes Mr. Albert E. Knowles, Granton, Ont., "I wouldn't be without them if they cost twice as much." If baby has a running or closed nose, give BABY'S OWN TABLETS. Absolutely safe. See certificate in each 25c package. 25c.

Dr. Williams' BABY'S OWN TABLETS

Mince twelve medium-size carrots. Add a teaspoon of sugar and steam until tender. Put into a baking dish. Sprinkle liberally with cheese and a little salt and pepper. Beat three eggs and stir into a pint of milk that has been put on the stove to heat. Let the mixture thicken; then pour over the carrots and cheese. Add more cheese for a top dressing. Put the baking dish in a pan of water and place in the oven to brown.

Depreciated in Value

South Carolina Slave Had Good Excuse For Being Worthless

The survivors of slave days in the United States are now very few and very old. One of them is Uncle Dan, a centenarian. He is a pensioner of the South Carolina family. Recently, while he was drawing his regular dole, his present patron took occasion to rally him good humouredly on not adding worth the cost of his pension in feet, of being lazy and no account in general. "Yes, seh, I expect that's right," the old man agreed. "But it ain't my fault. I remembers the day when your granddaddy paid 1,000 dollars for me, and then Mr. Dan, your coln comes along with the 'manicipation' proclamation and makes me just plumb worthless."

Magico now has more than 173 factories and mills that use rayon in making textile and articles.

SUNDAY SCHOOL LESSON

MARCH 13

JESUS COMFORTS HIS DISCIPLES

Golden Text: "Peace I leave with you. My peace I give unto you, not as the world giveth, give I unto you. Let not your heart be troubled, neither let it be fearful."—John 14:27.

Lesson: John 14 to 17.

Devotional Reading: Isaiah 40:1-8.

Explanations and Comments

Christ the Comforter, verse 1.—The disciples were perplexed and troubled; their hearts were failing them so they approached the last crisis in their Master's life. It was faith in the Father that kept Christ serene and powerful so near His end, and faith in the Father and the Son would uphold the disciples in that terrible hour. "Let not your heart be troubled," He said to them in their last talk together; "believe in God, believe also in Me."

"Twas the Master Himself who said it.

To the sorrowful little band,
Facing an hour of darkness
That they could not understand."

Here lies the secret of an untrodden life in the midst of troubled circumstances. There is a living God and Saviour. Not a nominal faith in the existence of God, but an active, overmastering belief in His goodness and wisdom and in His overruling all things for good will keep the heart from despair to a peace of glory and stress.

Christ's Words About Heaven, verses 2, 3.—Separation was at hand, but there would be a reunion. "In My Father's house are many mansions, if it were not so, I would have told you [that your hope might not be in vain]; for I go to prepare a place for you, that whosoever loveth Me, and keepeth My commandments, I will come and make My abode with him, and we will be together."

"Of course He would have told them. It was His nature to tell them everything that was necessary for them to know. He would not allow His friends to go on holding delusions from a word from Him would set them free. These men had in them an instinctive belief in the life to come. Like all normal and unspoiled men they believed that death is not the end. They looked forward to a life of larger scope and more than any this world can know. Jesus allowed them to nourish their expectations. He saw the direction in which their faces all were set, and He did not tell them they were swayed by an illusion. He let them go on thinking of heaven, hoping for heaven, working for heaven, and now that the end was near, He told them more plainly of the nature of this vast world just beyond the shadow."—Charles C. Johnson.

"No force devoid of compels. For him who shares Christ's way, for him alone the Christ of Calvary is a place prepared. Iscariot makes his own."

—John Elliot Bowman.

Christ the Way, the Truth, and the Life, verses 4-7.—The disciples had at last grasped the fact that Jesus was to leave them, and their minds were filled with a sense of the magnitude of their loss. When Jesus added, "I am the door," "I am the way," Thomas characteristically required fuller knowledge, exclaiming, "Lord, we know not whither Thou goest; how know we the way?"

The words of Jesus are rich in affirmations. In this Quarter's Lesson we have heard Him say, "I am the bread of life," "I am the light of the world," "I am the door," "I am the way," "I am the resurrection," "I am the life," now we hear Him add, "I am the way, the truth, and the life." Moffatt's translation reads, "I am the real and living way." Jesus does not mean that He is first the way, then the truth, and then the life. The words "truth" and "life" explain what He means by "the way." He is the way to God because He is the Truth about God (the true Revealer of God) and the Source of the life that cannot die.

Jesus our Redeemer is still the Way. A thousand ways have gone, but that remains. It is through His death and His rising from the dead, and through our daily fellowship with Him, that we walk heavenward, and reach Heaven at last.

"Without the Way there is no going; without the Truth there is no knowing; without the Life there is no living; in the Way which thou shouldst pursue; the Truth which thou shouldst believe; the Life which thou shouldst hope for."—Thomas A. Kempis.

Trebles Operation Cost

Mile a Minute Costly Joy Says Chicago Motor Club

The Chicago Motor Club has come to the conclusion, after an exhaustive investigation, that motoring at a mile a minute is three to four times more expensive than at forty to forty-five miles an hour.

Oil consumption at fifty-five miles an hour was found to be seven times greater than at thirty. The wear at fifty was twice as much as at forty. Gasoline consumption at fifty-five was one-fourth more than at thirty. Wear and tear on the car at the higher speeds also were taken into consideration.

A cauliflower weighing 26½ pounds, has just been grown in Cornwall, Australia.

An egotist imagines the world thinks as much of him as he thinks of himself.

BUCKLEY'S MIXTURE

Refused To Regard Blindness A Handicap

Veteran Of South African War Was Successful Barkeeper

The mind is carried back a generation with the news from Ontario of the death of "Trooper" Mulloy, one of Canada's heroes of the South African War. Mulloy, or to give him his proper designation, Lieut.-Col. Lorne W. Mulloy, lost his right from a wound in battle while a member of the Strathcona Horse in the grim encounter between Briton and Boer that began in 1899 and continued for almost three years.

Mr. Mulloy, who was a practicing barkeeper when death took him blind, was a man of rare courage in peace as well as in war. He refused to regard his blindness as a serious handicap in life. "If an not blind; I will live the life of a man with eyes," he declared when the bandages were being removed in a London hospital, and he kept his promise. By lecturing, he earned enough to graduate at Queen's University. There followed a post-graduate course at Oxford and a law course at Osgoode Hall. For the past eight years he had practiced law at Ingersoll. During the Great War he was an earnest and successful speaker for recruits.

"It is not necessary the disabled soldier who is to be pitied," said Col. Mulloy, in addressing a company of returned soldiers during the Great War. "Not the man who has lost an arm or a leg, or perhaps his sight. It is rather the man who comes back in sound health and strength, and in full possession of all his faculties, who has a piece of shrapnel lodged in his moral backbone. It is the lad who has the grit and gumption to stick to it during the period of transition who makes good. Remember, the three important things are self-reliance, self-reliance and purposeful self-reliance."

"Trooper" Mulloy, in other words, was an inspiration in more ways than one. It is a challenging memory that he bequeathes.—Regina Leader-Post (Evening).

Ray Of Hope

Collapse Of Wheat Market Not Due To World Surplus

There never has been a world surplus of wheat, according to Dr. W. Swanson, professor of economics at the University of Saskatchewan, in an interview at Regina, Sask. He expressed the opinion that the collapse of the international wheat market was from other factors, as the alleged surplus had never existed.

For this reason the economist expressed the view that those who waited that dollar wheat would never return here were not taking into consideration that the price of wheat had been linked with the prices of other commodities, some of which had dropped to a greater degree than wheat.

As a ray of hope to the grain growers and others involved, he expressed the opinion that wheat prices are due to make a steady recovery, from a standpoint of its strong statistical position.

Mr. Swanson qualified the statement when he said: "The course of these prices, however, will be determined by an infinitely complex combination of factors, not the least of which will be the purchasing power of the pound sterling, the outcome of which no one can definitely forecast."

PREMIER DENIES IN EVERY DETAIL CHARGES MADE

Ottawa, Ont.—Major W. D. Herridge, Canadian Minister to Washington, paid his own expenses while on his honeymoon last year and was not receiving a salary from the Canadian Government while absent. He testified to this effect before a parliamentary committee sitting to investigate the charges alleged to have been made in Hamilton last January by G. N. Gordon, K.C., former deputy speaker of the House of Commons. Premier R. B. Bennett also denied charges, allegedly made at the same time by Mr. Gordon, that when he assumed office as Prime Minister he secured a new private railway car at a cost to the public of \$125,000.

The inquiry is based on a report of the speech made by Mr. Gordon in Hamilton on the night of January 6 last, published in the Toronto Globe. Mr. Bennett said he had denied the charges when they were first brought to his attention; but later, when he found that they were receiving such widespread publication, and when he was in reality being "branded as a thief," he felt that out of respect to his office there should be a complete investigation.

The Premier made a most sweeping denial of the charges in every detail. Mr. Herridge had not enjoyed his wedding trip at the expense of the public treasury nor had he been in receipt of a salary at the time. Further, he testified, Major Herridge had not received any remuneration when he attended the Imperial Conference as Mr. Bennett's personal assistant, and had borne a large share of his own expenses at that time.

William Duff (Lib., Antigonish-Guyahog) questioned Premier Bennett as to the speech at Cobourg when Mr. Gordon made what one witness had claimed was an apology and retraction. Mr. Bennett replied that Mr. Gordon had made no apology or retraction that could be accepted in a legal sense. He thought that Mr. Duff although not a lawyer, would grasp the significance of that fact.

"I'm a sea-lawyer," declared Mr. Duff.

"Oh," the Prime Minister exclaimed, "I've always heard you referred to as 'the admiral'."

The inquiry was carried out with apparent good feeling by all parties and Premier Bennett stressed the point that he was making no public complaints of allegations which reflected upon his personal actions. These were to be expected in public life, he said. But the fact was that if the charges were true, he was not fit to head the government, and he was determined to prove, for that reason, that they were groundless.

No Foundation For Rail Merger Rumor

Royal Commission Report Will Not Be Given For Some Weeks

Ottawa, Ont.—Rumors to the effect that the Royal Commission on railways will recommend the amalgamation of the Canadian Pacific and Canadian National with corporation management are not justified in the progress made by the commission studying the railway problem. There will be no report from the commission for some weeks, and unanimity in recommendation is highly improbable. Lord Ashfield, one of the commissioners in London, England, and the date of his return to Canada is indefinite. It is doubtful if parliamentary prorogues by May 15th, if the Royal Commission's recommendation or recommendations will be forwarded to the government in time for action this session. It is also quite apparent there are irreconcilable differences of opinion in the commission which will not make for speedy action.

Oldest Albertan Dead

Lethbridge, Alberta.—Believed to be the oldest man in Alberta, Abner Jensen, of Astoria, a community near Cardston, is dead. He was 104 years old. He was born in Norway, emigrated to United States in 1887, and came to Alberta in 1897. Descendants of the fifth generation survive him.

Sings To Royalty

London, Eng.—Iwan Davis, 16-year-old Welsh singer who recently toured Canada, is the proudest boy in London. He spent an hour at Buckingham Palace singing numbers in Welsh and English before the King, the Queen and members of the royal household.

Doukhobors For South America

Plan For Large Scale Settlement From Europe

Winnipeg, Man.—Plans for large scale settlement of Doukhobors from Europe in various countries of South America are under discussion at a conference of Doukhobor leaders and their agents here. Peter Verigin, patriarchal head of the Christian Community of Universal Brotherhood, the official name for the Doukhobor sect, disclosed the nature of the conference to the Canadian Press.

He confirmed reports that negotiations are under way to acquire 1,000,000 acres of land in Colombia on which to settle 50,000 Doukhobors. This project, however, had nothing to do with the Canadian community in Canada, he declared. There was no thought of moving any Canadian Doukhobors to South America.

Far from any intention to move out of Canada, Mr. Verigin said his organization was purchasing more land here, building grain elevators for the use of their people and developing water powers to serve their settlements.

J. M. Hackney, St. Paul, Minn., president of the International Colonization Corporation which is negotiating the land deal in Colombia, is taking part in the conference. Another delegate is a man named Foster from Berlin, Germany. Mr. Verigin declined to name others but said representatives from London, England, and from Czechoslovakia were in attendance. The meetings will continue for several days. No details of the negotiations have been revealed until a later stage, the leader stated.

Alberta Premier Is Willing To Co-Operate

Would Discuss Plan To Cut Cost Of Maintaining Government Houses

Edmonton, Alberta.—Readiness to discuss with representatives of other provinces the desirability of some plan which would save the government the cost of maintaining government houses, was expressed by Premier Brownlee.

Some plan might be worked out along constitutional lines in a national way which would lead to a different system in connection with the office of the king's representative in the provinces, the Premier indicated. He referred to the situation in Ontario, however, where the chief justice of the supreme court is acting as administrator of the province, so lieutenant-governor having been appointed to the vacancy in that office.

The legislature was at the time discussing estimates and had the items for expenses of the lieutenant-governor's office under consideration.

Aid For Farmers

Bill To Provide Seed Grain Introduced In Manitoba Legislature

Winnipeg, Man.—Maltitoba farmers in need of feed for their livestock and of seed grain, will be aided under a measure introduced in the provincial legislature by Hon. Albert Freeston, Minister of Agriculture. It is intended to assist parts of the province stricken with total crop failure and will be speeded through all stages to become law at an early date.

The province will guarantee loans by banks to municipalities for the purchase of seed grain and fodder. Any possible loss on the loans will be shared on a three-way basis by the Provincial, Dominion and Municipal Governments. The bill, however, contemplates repayment of advances by farmers receiving relief.

So far, it was stated, the Dominion Government has not agreed to give the aid asked but it has offered to lend the province funds necessary for seed grain and fodder relief.

Asks For Definition

Ottawa, Ont.—What is a billion? This is the question which the senate of Canada is asked to answer. Senator Parent informed the senate that an English dictionary defined a billion as a million million, but added that this definition did not apply to the United States where a billion was a thousand million. Senator Parent wished to know which rule applied in Canada. The answer will probably be forthcoming in due course.

Manitoba Not Floating Loan

Winnipeg, Man.—Officials of the Provincial Treasurer's Department denied the Manitoba Government would float a loan of \$5,000,000. No preparations for such an issue are being made. Premier John Bracken said the Government is watching developments in the financial markets but has no present thought of a domestic issue.

Higher License On Radio Receiving Sets

Annual Fee Has Been Increased To Two Dollars

Ottawa, Ont.—The annual license fee on radio receiving sets will be increased from April 1 next, to \$2 per year, it was announced by Alfred Durnale, Minister of Marine. This fee has been \$1 per year in the past and the increase is expected to bring the annual revenue to nearly \$1,500,000.

The minister also stated that an increase in the license fees for commercial broadcasting stations on a graded basis, was under consideration.

Welsh Students Destroy Flag

Nationalists At Carnarvon Tear Union Jack To Shreds

Carnarvon, Wales.—Welsh Nationalist students hauled down the Union Jack from historic Carnarvon Castle and tore it to shreds in the market place.

Their action was a reprisal for the government's refusal to accede to the Welsh Nationalist request that the red dragon flag of Wales should fly over the castle March 1, St. David's Day.

FINANCES OF GREAT BRITAIN ARE IMPROVED

London, Eng.—Britain's improved financial condition was reflected in the announcement of Neville Chamberlain, Chancellor of the Exchequer, that British citizens again may buy foreign exchange.

Restrictions against the purchase of foreign exchange were imposed to protect the pound when Britain suspended the gold standard last year.

Asked whether restrictions against foreign loans would be lifted, the Chancellor indicated it would be "unwise for us to lend promiscuously overseas."

A cheer arose in Commons when Mr. Chamberlain confirmed that \$150,000,000 of \$200,000,000 borrowed in the United States last summer to bolster the pound, would be repaid.

The Chancellor added that a credit from French bankers of \$200,000,000 (\$200,000,000) for the same purpose had been reduced to \$7,000,000 (\$7,000,000).

Mr. Chamberlain recalled that an additional \$20,000,000 of French advances last August were represented by treasury bonds to that amount in the hands of the French holders.

"We have no power to require them to accept payment before August," he said, adding that the original \$80,000,000 (\$270,400,000) obtained from loans remains intact and is available for making repayments.

The Chancellor said he desired to remove apprehension that repayment of the credits abroad involved a loss to British taxpayers.

"The necessity of acquiring foreign currencies with sterling at its present level involves an apparent loss which will be borne by the exchequer on capital account," he asserted. "This loss is at present offset by the enhanced value of our stocks of gold. Accordingly no burden is being placed on the current revenue of the budget."

The \$150,000,000 repayment to the United States was final, the Chancellor said.

"The lenders have consented to return a proportionate part of the one per cent commission as from date of maturity of existing bills," he said.

CLASH OVER AIR FORCE DISMISSALS

Hon. J. L. Ralston (left) former Minister of National Defence in the King Administration, and Hon. D. M. Sutherland (right) Minister of National Defence, who clashed in the House of Commons debate on civil service salary reduction, when the matter of the dismissal of 166 officers and men of the Royal Canadian Air Force was discussed. Col. Ralston described the dismissal of the men as a breach of contract. Col. Sutherland defended the Government's action.

WOULD ACCEPT LEADERSHIP

Eamon De Valera, leader of the Republic of the Irish Free State, who is prepared to attempt to form a ministry.

Less Pay For Operators

Commercial Telegraphers Asked To Take Ten Per Cent. Cut

Montreal, Que.—The Canadian Pacific and Canadian National Railways Companies have notified the Commercial Telegraphers' Union that for one year commencing April 1, a straight salary reduction of 10 per cent. will be introduced in the pay of commercial telegraphers. The companies' decision has been communicated to the various local Seventeen hundred employees of the Canadian National and 1,500 C.P.R. employees are affected.

The Canadian Pacific Railway Company, Wednesday, March 2, announced that effective March 1, the reduction in working time of three days per month without pay among general office staff has been changed to two days per month. This brings their class of employees approximately the same rate of wage reduction as has been applied to the running trades and clerks.

Decide On Valuation Of Empire Goods

Provisions In Preference Regulations Under New Import Duties Act

London, England.—The Board of Trade has revealed its preference regulations under the new Import Duties Act provided goods shall not be deemed to have been manufactured in the British Empire unless at least 25 per cent. of their value is derived from Empire materials or work done within the Empire.

Where a number of separate articles are included in one parcel or shipment, each article will be treated separately.

The value of manufacturers will be based on their cost to the manufacturer at his factory or works, including the value of containers, but not including manufacturers' or exporters' profit.

Joins Tariff Plan

Douglas, Isle of Man.—The Isle of Man joined Great Britain as a protection country when the Manx Tynwald court imposed a ten per cent. tariff on all goods except those on the free list of the United Kingdom's tariff act and with the addition of sugar, table waters and dried fruits.

Special Coal Rate Extended

Calgary, Alberta.—Coal men of Alberta were cheered by the news from Ottawa that the special \$8.75 per ton freight rate to Ontario had been extended another year. The rate was scheduled to expire July 13, 1931, but its removal was delayed pending the outcome of decisions between Dominion Government officials.

Rescued From Snowslide

Sectionman Buried—In Drift For Twenty-Six Hours

New Westminster, B.C.—Buried in an immense snow drift for twenty-six hours, John Peebles, 19, Kettle Valley railway sectionman, was rescued alive and is now recovering in hospital here. He is suffering from frozen hands and feet and from exposure.

Peebles was inspecting the track when the snowslide caught him and buried him under about eighteen feet of snow. An afternoon and night he battled valiantly to fight his way out of his icy prison. Occasional air pockets helped to keep him alive.

When Peebles failed to return fellow workers suspected his fate and finally succeeded in digging him out, alive but unconscious.

Dominion Note Advance

Totals Twenty Million

Figures Given In House By Minister Of Finance

Ottawa, Ont.—The present total amount of Dominion notes advanced under the authority of the Finance Act to the banks in Canada by the Minister of Finance was \$20,000,000, Hon. E. N. Rhodes stated in the House of Commons. The rate of interest being charged the borrowing banks was three per cent. and the lowest rate of interest charged the banks for such advances during 1931 was also three per cent., the Minister of Finance declared.

Anxious To Settle Reparations Problem

France Thinks It Has Become Political Question

Paris, France.—A growing desire to settle the reparations problem on the basis that it has ceased to be a financial question and has become primarily a political one, was reported diplomatically.

Premier Andre Tardieu, who returned from the world disarmament conference at Geneva, had a conference with Leopold Von Hoesch, the German ambassador, and Andre Francois-Poncet, French ambassador, to Berlin.

UNEMPLOYMENT NATIONAL CRISIS MAINTAINS KING

Ottawa, Ont.—The Bennett Government allowed its unemployment relief legislation to become "as dead as Julius Caesar" and "as extinct as the dodo" without offering an alternative scheme, Right Hon. Mackenzie King, Liberal leader, charged in the House of Commons.

Despite the Liberal leader's many-sided attack on the Government's unemployment relief record, it gathered few supporters from the third party group. William Irvine, U.F.A. Wetaskiwin, announced the gingershots would refrain from voting on the want-of-confidence motion of Peter Heenan, former Minister of Labor. Although not agreeing with the government's policies, the group, he said, viewed the motion as pure party politics.

W. V. Neill, Comox-Alberni, and Henri Bourassa, Labelle, the two independents, also said they would not support the Heenan motion.

Unemployment, said Mr. King, had become a national crisis. The government's remedial policy had failed, yet it offered no alternative. The only move it had taken was to propose a resolution to prolong for two months the life of the "blank cheque" legislation. But even this had failed because the act automatically expired at midnight.

"I believe this problem of unemployment," proceeded Mr. King, "is going to be with us, not only for several months yet, but I fear for possibly another year or two at least."

Establishment of a national commission to advise the government, was advocated by the Liberal leader. "I would represent labor, farmers, economists, municipalities, provinces, red cross and other organizations with special knowledge of conditions. Parliament took official notice of the 'bad cheque artist' when it considered a government bill to tighten the law aimed at this practice. Introduced by Hon. Hugh Guthrie, Minister of Justice, it stood for third reading after being passed by the House in Committee. Under it, a man who passed a cheque, knowing it would not be honored by a bank, would be prosecuted for securing goods under false pretences. The onus of proving himself innocent would be on the accused."

UNEMPLOYED DEMAND IS MET BY A REFUSAL

Ottawa, Ont.—Representatives of the unemployed who from many Canadian cities converged on Ottawa, met the government in the railway committee rooms of the House of Commons. They were told frankly by the Prime Minister that their "demands" for a system of non-contributory insurance at union wage rates for all unemployed above 16 years of age without any discrimination whatsoever, could not be met.

The "demand" was that a fund be established through a levy on incomes above \$5,000, confiscation of wealth and savings from armaments and that this fund be administered by a committee selected by the workers themselves. The government had promised an investigation into a contributory system, with employers and workers participating, Mr. Bennett remarked.

The delegation was also told that threats and marches on Ottawa would not cause the government to change its position. James Litherick of Toronto, was spokesman for the delegation and attacked the unemployment activities of the government, and urged many changes.

At the meeting were not only most of the members of the cabinet but members of parliament from all parties in the House.

The day had been more or less eventful for the delegations. In the forenoon they had formed up on Wellington Street to march to the Parliament Buildings, but they found the gates leading to Parliament Hill guarded, and they held a meeting near the city post office. The street meeting was dispersed by the police and the delegates arrested.

Two were afterwards released. The delegates then met in a hall. They were informed that the government would meet them if they limited their deputations to 35 persons.

The delegation reached the Parliament Buildings at 2:30 p.m. Royal Canadian Mounted Police had taken precautions to prevent disturbances, and there were none.

Edmonton, Alta.—Hunger marches, started in Edmonton where they gathered recently from all parts of the province to present their demands to the provincial government, would be aided in returning to their homes. Premier J. R. Brown said. He added, however, that only in cases where it was found the men were unable to pay their own transportation would any assistance be given.

Winnipeg, Man.—Demanding immediate action for all young workers, trade union wages on all relief work and application of all money now spent for military training to unemployment relief some 1,500 men marched to the provincial parliament building. Police watched the marchers to see that order was observed.

Use Panama Route

C.N.R. Steamships May Inaugurate Fortnightly Freight Service Between Montreal and Vancouver

Montreal, Que.—The Canadian National Steamships announced the possibility of a fortnightly freight service between Montreal and Vancouver via the Panama Canal this summer, and stated as a certainty that the "Canadian Britisher," the "Canadian Ranger," and the "Canadian Winner," would, as last summer, operate a monthly service over this route.

This intercoastal service, maintained between Vancouver and St. John, N.B., and Halifax in the winter season, "has opened Pacific coast markets which formerly were beyond the reach of eastern Canada manufacturers economically," the announcement says. Lumber from British Columbia and general merchandise from eastern Canada are the commodities carried.

Speed King Visits Canada

Sir Malcolm Campbell Is Welcomed At Toronto Luncheon

Toronto, Ont.—"I feel certain there is more speed in the old car yet," declared Sir Malcolm Campbell, British speed ace, in an address at an Empire club luncheon here. "I do think this car of mine is a remarkable test of British workmanship and materials, especially when it is considered it is just a little over eight years old."

Sir Malcolm was welcomed to the city when several thousand persons gathered at the city hall to hear Mayor William Stewart read an address of welcome. At luncheon the speed king was welcomed on behalf of the Province of Ontario by Premier George S. Henry.

CHAPTER XIV—Continued.

She felt that if only Judith could better comprehend Glyn's nature, she would not only be disposed to judge him less harshly, but, to a certain extent, would find healing for her own bitterness of resentment and hurt pride.

Judith was an unhappy woman, embittered by one of those blows in life which a woman finds hardest to bear. And Jean hated people to be unhappy.

So that it was with considerable satisfaction that she set out across the park towards Willow Ferry, crossing the river by the footbridge which spanned it at a point about a quarter of a mile before the scene of her boating mishap.

Judith welcomed her with unaccustomed warmth, and after lunch completely won her heart by a candid, seemingly akin to Jean's own.

"I've been quite hateful to you since you came to Staple," she said frankly. "Just because you were—who you were. I suppose—turning her head a little aside—"you've heard—you know that old story?"

Then, as Jean murmured an affirmative, she went on quickly:

"Well, it was idiotic of me to feel unfriendly to you because you happened to be Glyn's daughter, and I'm honestly ashamed of myself. I should have loved you at once—you're rather a dear, you know—if you had been anyone else. So will you let me love you now, please—if it isn't too late?"

It was charmingly done, and Jean received the friendly overture with all the enthusiasm dictated by a generous and spontaneous nature.

"Why, of course," she agreed gladly. "Let's begin over again"—smiling. Judith smiled back.

"Yes, we'll make a fresh start."

After that, things progressed swimmingly. The slight "gene" which had attended the earlier stages of the visit vanished, and very soon, prompted by Judith's eager, interested questions, Jean found herself chatting away quite naturally and happily about her life before she came to Staple and confessing how much she was enjoying her first experience of England.

"It's all so soft, and pretty, and old," she said. "I feel as if Staple must always have been here—just where it is, looking across to the Moor, and nodding sometimes, as much as to say, 'I've been here so long that I know some of your secrets,'" she added dreamily. "Those great towers watch us all the time, just as they've watched for centuries. They remind me of the Egyptian sphinx, they are so still, and silent, and—eternal-looking."

"You've not been on to Dartmoor yet, have you?" asked Judith. "We

She collected her tools, and slipping her arm within Jean's led her in the direction of the house.

"We'll have tea at once," she said, "and then I'll walk back with you part way."

"You're bent on getting rid of me quickly, then?"

"Yes"—seriously. "He"—there was little need to specify to whom the pronoun referred—"will be back by the afternoon train, and for some reason or other he is very unfriendly towards you just now."

"What have I done to offend?" queried Jean lightly. Somehow, with Sir Adrian actually away, it didn't seem a matter of much importance whether he was offended or not. Even the house had a different "feel" about it as they entered it.

"It's not anything you've done; it's what you are. I think, sometimes, that when a man is full of evil and cruel thoughts and knows he has given himself up to wickedness, he simply hates to see anyone young—and good, like you are, Jean, with all your life before you to make a splendid thing of."

"And what about you?" asked Jean, her eyes resting affectionately on the other's delicate flower face with its pathetically curved lips and the look of trouble in the young blue eyes.

"He sees you constantly."

"Oh, he's used to me. I'm only his wife, you see. Besides,"—wearily—"he knows that he can effectually prevent me from making a splendid thing of my life."

The note of bitterness in her voice wrung Jean's heart.

"I don't know how you bear it!" she exclaimed.

"One can bear anything—a day at a time," answered Claire with an attempt at brightness. "But I never look forward," she added in a lower tone.

The words seemed to Jean to contain an epitome of tragedy. Not yet twenty, and Claire's whole philosophy of life was embodied in those four desolate words: "I never look forward!"

The world seemed built up of sadness and cross-purposes. Claire and Jean, and Jean's whole philosophy of life was embodied in those four desolate words: "I never look forward!"

Just wash the dirt away...

FREE BOOKLET: The Gillett's Lye Booklet shows many ways to save drudgery by using this powerful cleanser and disinfectant. Contains full directions for true scrubbing, soap making, disinfecting, and other farm uses. Address: Standard Brands Limited, Fraser Ave. & Liberty Street, Toronto, Ontario.

GILLETT'S LYE

"Never dissolve lye in hot water. The action of the lye itself heats the water."

EATS DIRT

Gillett's Lye lifts off Grease, Grime and Stubborn Stains without scrubbing . . .

WHY let house-cleaning wear you down with endless hours of rubbing and scrubbing?

Use Gillett's Pure Flake Lye. This powerful cleanser makes short work of heavy cleaning jobs. It just washes the dirt away!

Off come grease and grime without scrubbing. Out come even the most stubborn spots and stains.

Keep Gillett's Pure Flake Lye handy for greasy pots, the kitchen floor, sinks and bathtubs. One teaspoonful dissolved in a quart of cold water makes a safe, economical cleanser.

And . . . Gillett's Pure Flake Lye will not harm enamel or plumbing. Use it full strength for cleaning toilet bowls and clearing drains.

Gillett's Pure Flake Lye kills germs. And takes away odors as it cleans.

Be sure to get the genuine Gillett's Pure Flake Lye. Ask for it by name at your grocer's.

THE RHYMING OPTIMIST

By Aline Michaels

YOUTH

Youth and the great adventure
Beckoning just ahead,
Never a thought of questioning,
Never a thought of dread.

Youth and the fire of living
Blazing through every vein,
Wealth of vision and high desire,
Arduous that does not wane.

Youth, how the old world loves it,
Kneeling before its shrine,
Knowing that up from its throbbing
Heart

Flashes the fire divine!
Youth and its song; seraphic
Youth and its dauntless deed;
Youth and its dreams that never fail,
Meeting the tired world's need!

Youth and its memories magic,
Sweetness of dawn and dew;
Youth with the glow of its loveliness
Lingering all life through!

Will Guarantee Apples
Steps are being taken by the Department of Agriculture at Ottawa to convince the governments of Belgium and France that Canada can guarantee her apple shipments to be free from San Jose scale.

An instrument to register off-key notes of a singer's voice has been perfected by scientists of the University of Iowa.

Vinegar will remove most any stain from the hands.

Drives Asthma Like Magic.
The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is a natural remedy used in a natural way. The smoke or vapor, reaching the most remote passage of the affected bronchus, soothes the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Waters of the Gulf Stream range in temperature from about 62 degrees Fahrenheit in winter to 88 in summer.

Liverpool is being seized for further town-planning developments.

For Rheumatic Pains.—The pains and stiffness of Rheumatism and Rheumatoid should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, such as scratches, bruises and sprains, either in human beings or the lower animals.

Belgium is increasing its production of patent leather.

The diplomat's jawbone is mightier than his sword.

Bridge In the Northland

Almost Every Person In Churchill Taking Part In Tournament

Canada's northland is in the throes of its first contract bridge tournament. Almost the entire population of this new seaport on the shore of Hudson's Bay is participating and the entries are so numerous it will be the end of the winter before the contest narrows down to the semi-finals.

Elevator and dock watchmen, Hudson's Bay Company employees, fur traders, trappers and Eskimos are all eager to test the merits of their pet systems.

Meantime through the radio, only means of communication in the Arctic winter, news of the progress of this contest is being sent to all the stations scattered to the westward and northward to the shores of the Arctic Ocean.

Three directors were elected to the board at this meeting to serve for the year. A. E. Wilson, Indian Head; R. H. Blackmore, Davidson; and E. G. Hingley, Regina.

Little Helps For This Week

"Study to show thyself approved unto God, a workman that needeth not to be ashamed."—2 Timothy ii. 15.

One by one thy duties wait thee,
Let thy whole heart go to each,
Let no future dream slake thee,
Learn thou first what these are to teach.

—Adelaide Anne Procter.

The consciousness of duty performed gives us music at midnight.

—George Herbert.

Do thy duty, and be at peace with God and thine own conscience. There can be no peace for thee apart from the honest and daily discharge of those obligations, great and small, which come into thy life from the Creator, and which, rightly viewed, are angels of divine discipline. Thou hast too much to say about thy rights, and thinkest too little about thy duties. Thou hast but one inalienable right; and that is the sublime one of doing thy duty at all times, under all circumstances, and in all places.—Frederic R. Maroon.

Saskatchewan Hail Losses

Claims For 1931 Crop Much Lower Than Previous Year

Claims for hail losses in Saskatchewan during 1931 amounted to \$587,000 according to figures contained in reports given at the annual meeting of the Saskatchewan Municipal Hail Association held in Moose Jaw.

A total of 3,521 claims were filed with the association during the year. The previous year, claims totalled between 7,000 and 8,000 and the loss was \$2,400,000.

Three directors were elected to the board at this meeting to serve for the year. A. E. Wilson, Indian Head; R. H. Blackmore, Davidson; and E. G. Hingley, Regina.

"Study to show thyself approved unto God, a workman that needeth not to be ashamed."—2 Timothy ii. 15.

One by one thy duties wait thee,
Let thy whole heart go to each,
Let no future dream slake thee,
Learn thou first what these are to teach.

—Adelaide Anne Procter.

The consciousness of duty performed gives us music at midnight.

—George Herbert.

Do thy duty, and be at peace with God and thine own conscience. There can be no peace for thee apart from the honest and daily discharge of those obligations, great and small, which come into thy life from the Creator, and which, rightly viewed, are angels of divine discipline. Thou hast too much to say about thy rights, and thinkest too little about thy duties. Thou hast but one inalienable right; and that is the sublime one of doing thy duty at all times, under all circumstances, and in all places.—Frederic R. Maroon.

Drives Asthma Like Magic.
The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is a natural remedy used in a natural way. The smoke or vapor, reaching the most remote passage of the affected bronchus, soothes the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Waters of the Gulf Stream range in temperature from about 62 degrees Fahrenheit in winter to 88 in summer.

Liverpool is being seized for further town-planning developments.

For Rheumatic Pains.—The pains and stiffness of Rheumatism and Rheumatoid should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, such as scratches, bruises and sprains, either in human beings or the lower animals.

Belgium is increasing its production of patent leather.

The diplomat's jawbone is mightier than his sword.

Little Helps For This Week

"Study to show thyself approved unto God, a workman that needeth not to be ashamed."—2 Timothy ii. 15.

Her Heart Was So Bad Couldn't Do Housework

Mrs. R. Dragman, R. T. 2, Midland, Ont., writes:—"I had been troubled with heart trouble for many years."

My heart would beat so fast I could hardly breathe, and I had headaches, and dizzy and fainting spells.

I couldn't get my housework done. I was so weak. I took three boxes of Milburn's Heart and Nerve Pills and felt much better, and now I would not be without them in the house."

Hold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Like Continental Dish

People In New York Eat Millions Of Frog's Legs

The circumference that more than 30,000,000 pairs of frog's legs are annually consumed within the confines of New York City may appear to those with a penchant for combining statistics with gastronomy as of some culinary significance. Chicago also is a frog's-legs-conscious community with an annual consumption of 18,000,000 pairs of extremities while San Francisco comes third with the disposal of a creditable 8,000,000. But it is the New York figure which is of importance as indicating that frog's legs are no longer a delirious appetite to the trained Gallic palate alone.

The French population of New York is only about 300,000, and as it is hardly probable that every Frenchman, woman and infant can account for a thousand pairs a year, it would seem that Americans, too, have cultivated a taste for a dish long held to be almost exclusively Continental.

Japan consists of 487 islands.

Reviews the N. U. 1932

When PAIN Comes

WHAT many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sour. The corrective is an alkali, which neutralizes the acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia.

One spoonful of this harmless, tasteless alkali in water neutralizes instantly many times that much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go, get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. It's a bottle—any drug store. (Made in Canada.)

St. Patrick's Dance In East Community Hall

Famous Radio Orchestra to Play

The committee in charge of the East Community dances have secured Mrs. Trainor's famous old-time radio orchestra of Calgary to play for their St. Patrick's Dance on March 17th.

This orchestra made an outstanding hit at the Crossfield Old-Timers dance on Feb. 2nd.

Remember, there will be no increase in prices for this dance.

"THE GOLDEN KEY"

The regular meeting of the Golden Key was held at the home of Melva English on Tuesday night. In the absence of the president Mildred Metherall, Melva English presided at the meeting.

It was decided to have a scrap book, to which each member must contribute something. Also each member is to make a handkerchief with a golden key embroidered on it.

As the meeting was of an intellectual character, the roll call was current events. Kathleen Fitzpatrick read to the members and Mrs. English gave a lesson in darning.

The next meeting is to be held at the home of Velma Pogue on March 15.

Wilda Laut, Secretary.

HATCHING EGGS FOR SALE

The season for selling hatching eggs is soon on. If you have eggs to sell, tell all your neighbors both far and near. This is done quickly through the columns of the Chronicle. It does not cost much.

The next big event will be Crossfield's Community Sale.

TAX SALE

Copy of Advertisement Appearing in The Alberta Gazette, Saturday, Jan. 30, 1932.

Each parcel will be offered for sale subject to a reserve bid, and the reservations contained in the existing certificates of title. Terms, cash.

Redemption may be effected by the payment of all arrears of taxes and costs, at any time prior to the sale.

Dated at Dog Pound, Alberta, this 21st day of January, 1932.

G. B. HUNTER,

Secretary-Treasurer.

Local and General

Remember the St. Patrick's Dance
Mayor Williams was a business visitor in Calgary on Monday.

Remember the Community Sale on Saturday, March 28.

Happy McMillan spent the weekend in Calgary.

Mr. and Mrs. A. Stevens were visitors in the city on Saturday.

Mrs. J. S. Jarman and Phyllis spent the week-end in Calgary.

Postmaster Mossop was able to be around on Monday after being laid up for the past week.

Adam Cruickshank, Lloyd McCrory and Alfred Stevens, celebrated their birthdays on Tuesday.

R. M. McCool, M.L.A. was a visitor in town between trains today.

Mrs. A. A. Halliday left for Bassano on Saturday last to visit her daughter Mrs. McCrea.

Dick Patmore who has been wintering at Lacombe, returned to town on Saturday.

The first meeting of the Council for the year 1932 will be held in Crossfield on Monday, March 13.

Ed Hehr was married in Calgary on Monday, other than this we have been unable to get any particulars.

Mrs. R. T. Amery entertained the Bridge Club on Tuesday evening.

BORN—To Mr. and Mrs. Ed. McArthur of Bottrel, on March 7th, 1932, a son.

H. J. Jobson, auctioneer of Balzac, was a visitor in town on Saturday. See his advertisement elsewhere in this issue.

Frank Allonby of Conrich, Alta., spent Saturday with his parents Mr. and Mrs. G. K. Allonby at the Poplar Dale Stock Farm.

Keep in mind the Legion Social Evening and Whist Drive in the Masonic Hall on Tuesday, March 29th. Everyone invited.

Norman and Henry Johnson have taken up bachelor quarters with Stanley Reid in his cottage on Alberta Street.

Dr. Williams had Everett Green removed to the General Hospital, Calgary on Tuesday. Everett has not been getting on as well as was hoped for.

Everybody and his brother is going to the St. Patrick's Dance in East Community Hall on Mar. 17th. Mrs. Trainor's Old Time Radio Orchestra of Calgary will furnish the music—S.R.O.

Mr. and Mrs. E. J. L. Morgan who have been farming the Abra place for the past three years, left for Gladys, Alberta, where he has rented a farm. Mr. Abra is moving back on the farm.

Miss Edna Ableman who had the misfortune to break a bone in her ankle some three weeks ago while coasting, is getting along nicely, and expects to return to school shortly.

It is expected that work on the new highway between Airdrie and Calgary will start early in April. This work was started last fall, but was later held up when winter set in.

Let us hope March will live up to the old saying "come in like a lion and go out like a lamb." We have had below zero weather so far this month, 24 below being the lowest.

Geo. Leask of Madden, left on Wednesday to attend the annual Horse Sale at High River, which is to be held on Friday. Mr. Leask has three well finished horses entered in the sale. The horses were taken to High River by M. Patmore in his big truck.

Farmers here are disposing of their surplus green feed, which is trucked to and around Calgary. Irvine Pike recently disposed of \$400 worth to Balzac and Calgary buyers. \$4.00 to \$5.00 per ton is the going price.

Leonard Pullan, well-known in Crossfield, was singing over the air from Calgary this week. We still believe that Leonard is a better soft ball player than a singer, but at that he has it on a lot of flat tires who broadcast from Calgary.

THURSDAY, Mar. 10th, 1932

The tea and sale of farm produce put on by the Ladies Aids of the Inverlea and Beaver Dam Districts on Saturday last was fairly well attended, and considering the climatic conditions and everything else, was considered satisfactory.

A "500" party was held in the Floral school on Friday evening last, when eight tables were played. Mrs. O. E. Jones won the ladies' first prize and O. E. Jones the gent's prize; consolation prizes going to Mrs. George Jones and Clint Thompson.

Glen Williams who underwent an operation some time ago, is getting along nicely, and was able to leave the hospital last Thursday. Glen is convalescing in Calgary and expects to be back on the job in two weeks.
